

You Want To GROW-Up

To Be A Firefighter ?

You think it's a wild adventure. You think it's dangerous and exciting and a big adrenaline rush. You think you might like it – even love it, if you could spend your summers fighting fire in the forests, beating yourself into the dirt with the soot-blackened heroes you've heard so much about, or seen on TV and in the movies. Maybe someone you know has done it, and now you want it so bad you can taste it. It's become your dream, and you just gotta make it come true.

It's not an easy task, nothing in life is. It takes a great deal of perseverance, patience, persistence, dedication and good old-fashioned hard work to become a firefighter.
